

RUBBER EXPANSION JOINT MATERIAL

Meets or exceeds the performance requirements of ASTM D 1751-97 & D 1752-84 (1995)

Manufactured by

THE J D RUSSELL COMPANY

NORTHERN REGION SOUTHERN REGION WESTERN REGION

1-800-888-9708

1-800-888-6872

1-800-888-7425

REFLEX, made from RECYCLED TIRE RUBBER, is now part of TEXAS D.O.T. STANDARDS DMS6310 for JOINT SEALERS and FILLERS

REFLEX Rubber vs Asphalt

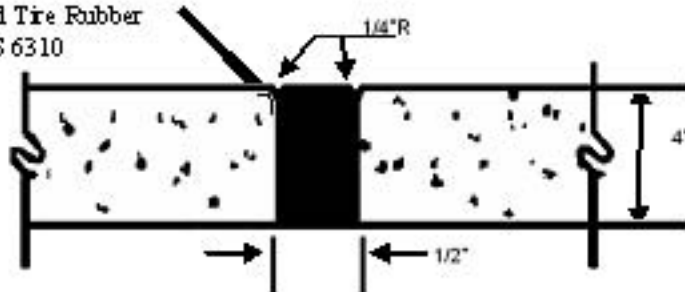

- Rubber has superior compression recovery
- Rubber makes radial applications easy
- Reflex Rubber has excellent heat and cold exposure characteristics

REFLEX Rubber vs Timber

- Timber board has no compression recovery
- Radial application impossible
- Wood - no insect resistance (Reflex has proven it will resist insects in USDA testing)

Texas Street Departments now using

Recycled Tire Rubber per DMS 6310
